SUPER STRUCTURES

DGS9 50669

Since the dawn of civilization, complex building projects have differentiated humanity from the globe's other inhabitants. The first of these structures were purely functional in character—scarcely different from beaver dams or bird nests—but, gradually, an element of pride and oneupmanship seeped into the matrix, laying the foundations of an architectural epic that persists to this day.

The story really kicked into high gear during the 19th century, with the advent of the Industrial Revolution. Super Structures explores some of the greatest engineering feats of the Modern Era, as the human imagination has extended its transformative reach from the Continental Shelf beneath the English Channel to the void of space. This extraordinary 5-DVD set will please cultural historians and technological enthusiasts alike!

WINGS OF DESTRUCTION

DGS9 50893

From the Red Baron to Top Gun—the 20th century was very much the age of the aviator. The introduction of an aerial dimension changed military conflict forever—and restored a kind of knightly grace to the increasingly ugly spectacle of advanced warfare. While faceless constellations of men and machines slammed into each other on the sea and the ground, dogfighters faced off in the skies according to chivalric codes of their own.

Marshalling an extraordinary array of historical materials, Wings of Destruction brings this fusion of old-fashioned heroism and ultra-modern technology dramatically to life. From bi-planes to bombers, from Germany to the Gulf, this 15-part saga will give you a co-pilot's view of the greatest air aces of all time!

MILITARY SECRETS & SCANDALS OF THE 20TH CENTURY

DGS9 50894

We think of military conflict as a naked confrontation between opposed masses—but behind the fog of war, in laboratories and classified meetings, the subtle machinations go on. Scientists, spies and diplomatic attachés can often exert a much greater influence upon the course of a war than the principal combatants involved.

Military Secrets and Scandals of the 20th Century takes you behind enemy (and ally) lines, reserving you a seat at the conspiratorial bargaining table. From Hitler's bunker to the Desert Storm round table, this insightful, impeccably researched 12-part series will deepen your understanding of top secret debates and suppressed debates that never made the headlines—until now!

PACIFIC WARRIORS

DGS9 50906

The Japanese bombing of Pearl Harbor on December 7, 1941 ignited a deadly four-year war for strategic position in the Pacific Ocean. American air and sea power played major roles in turning the tide of the battle, but the hundreds of islands which made up the "squares" in this epic chess game could never have been taken without the blood, sweat and tears of the Marines. Each of these rocks concealed the potential for a dangerous air base and the war effort demanded that no stone be left unturned. 9's exciting series tells the full story of that ferocious amphibious assault, capturing every bloody footstep on the beach. Pacific Warriors brings together a wealth of documentary footage and historical insight, taking you from the eve of the war to the killing fields of Okinawa, and offering a fascinating look at the day-to-day lives of the "leather-necks" who fought and won the most vicious battles of World War Two.

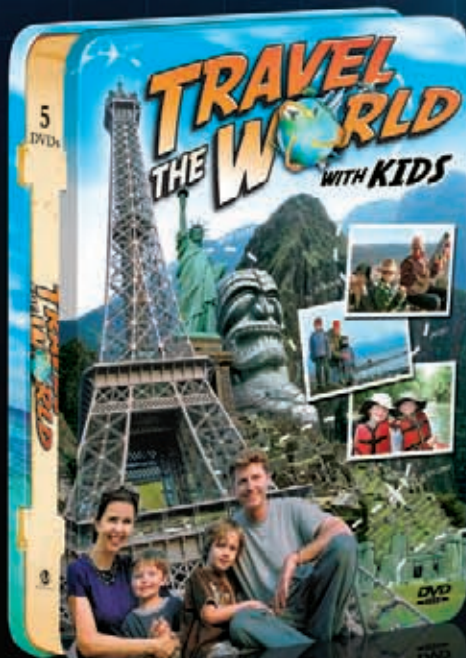

DREAM MACHINES

DGS9 50907

The United States, more than any other nation, owes its modern existence to the automobile. From Henry Ford's "Model T" to the freeway culture of the fifties, the "horseless carriage" occupies an even more iconic position on the American landscape than the cowboy. Cars take us where we need to go, and set our imaginations firing on all cylinders.

Dream Machines examines our preoccupation with all things vehicular, filmed in glorious High Definition! This collection will fill your mental tank with a wealth of automotive information. From classic car shows to motorcycle racing to profiles of industry leaders like SAAB and Corvette, Dream Machines comes fully-loaded with perspectives on this high-octane American obsession.
