KEY DATA
Tentative Release Date:
March 29th, 2011
Orders Due:

File Under:
CHILDREN

• The Kerplunks are award winning children's entertainers including a 2011 Juno nomination for Children's Album of the Year. Bringing high-energy, colourful performances to the stage - and outfits that match! As a group they are committed to entertaining and educating children through musical creativity. When they start playing, kids are soon dancing and following along with the actions. Even parents cannot resist getting up out of their seats!

• The Kerplunks have just released their third CD, the aptly named Number 3: a mix of genres, topics that range from the alphabet to playing outside. What sets this band apart is musicianship. This is a real band that knows what they're doing with their instruments. Good example is the twangy "Honey Bee", which has a lively fiddle, jaw harp and harmonies. There's the blues inspired "Air Guitar", with tight drums and a wailing guitar. Also standing out is the groovy "Fresh Air", which talks about getting outdoors and breathing in the air. "Vowel" is a 60s rock song with great content too. "ABCD" is a rhythmical number with complex melodies to boot. Probably the cleverest tune is the vampy "Number 10", which discusses numbers one through 10 and what all this ranking means. This bright, rootsy disc has a lot to offer families who appreciate good music.

"A smash hit with kids" - Vancouver Sun
"A winner for your family's music collection" - Vancouver Island Parent Magazine
