- Love Songs To The Source is an evocative and stylistically diverse electronica album from the distinguished US producer Bluetech, known worldwide for his releases on Waveform, Aleph Zero, Somnia and Native State Records.

- fans of all previous Bluetech, Evan Marc and Evan Bartholomew material will find instant familiarity with this album while enjoying the inclusion of new vocal and other instrumental elements.

- strong cross over appeal to new audiences with outstanding vocal contributions from Dr. Israel, Katrina Blackstone, Mari Boine, Tina Malia, Lynx and Lady K. Instrumental contributions by Jamie Janover, KiloWatts and members of The March Fourth Marching Band (horns) broadens the appeal of the album even further.

- Bluetech's music was recently placed in the popular HBO TV show CSI

- Bluetech is set to remix a Kaya Project track on the forthcoming Kaya Project Remix album due out this coming November.
