Roots, Folk, Folk Rock

Perhaps you've heard Jon and Roy on CBC Radio 2 Drive, or perhaps as a CBC theme song. Or maybe it was on commercial or college radio where the band spent months on charts. Or on TV in a VW commercial or one of the many TV shows/Movies featuring their music.

It could even have been live at one of the many festivals the band performs at. Either way, Jon and Roy, with accompanying band in tow, have a rapidly growing and dedicated audience and suddenly the buzz is everywhere. This uncompromising roots band is making big waves in the 'new folk' movement sweeping North America. After finishing their recent tour across the country with The Cat Empire they returned home to finish work on their sophomore national release 'Homes.'

Eight months to record, from beginning to end, this is a collection of fourteen meticulously crafted songs in the continuing vein of Jon and Roy, an album that ventures into new territory as the band evolves and grows. On April 13<sup>th</sup> 2010 this album will find its way into the stores and airwaves and a new chapter in the story of Jon and Roy will begin. Enjoy.
